FILEWILE REMIXED PART ONE

01 Kleppa (Pola Remix) 05:39 This one may well become a DJ's favorite. Pola clearly have a rockin' dance-floor in mind with this catchy electro-pop remix. Pola are a duo from Bern, Switzerland, consisting of Oli Kuster (Züri West) and Marcel Blatti (Felka, Maozinha). Dance!

02 Chumpnrun (Alphatronic Remix) 04:21 Since 1997 Dani Wihler from Bern is busy perfecting his personal idea of Electro music. For the remix of Chumpnrun he's stepped up a gear. Dreamy fragments of melodies and carefully shaped sounds lie on top of a crisp, neon-colored electro-beat. Further projects of Wihler are Formel with Edy Marconi (they're in the line-up for the Filewile Remixed release party), Mustfuzz with the American Tom Veduik and Swotronic with DJ Swo (Filewile Remixed Part Two)

03 Trolley (Scott Delgado Remix) 07:22

The man behind the pseudonym Scott Delgado is none lesser than the ever busy producer, musician and net-label activist (realaudio.ch) Benjamin Fay aka Benfay. As Electro-House producer Scott Delgado he's serving up a top notch club tune. Check the sub-bass! A super funky tune with clever synth sounds on a none too serious break and an easy going finish. Switch on loop-mode and shake to this!

04 Kleppa (Random Acoustics Remix) 07:24 Bern based DJs and producers Smat and Jakob taking 'Kleppa' up a pace: from the Electro-House intro via the Drum 'n' Bass break and back to a rollin' Electro-House tune, setting the mood for the night in an upbeat kinda style.

05 Chumpnrun (SAD Remix feat.6erGascho) 03:31

Bounce baby! SAD is currently the hottest beat producer in Switzerland, his work reads like a who is who of the Swiss Hip Hop scene: Chlyklass, Baze, Luut & Tüütli, PVP, and so on... For the Filewile he brought newcomers 6erGascho to the studio, coming out with some heavy results!

06 Chumpnrun (Cris P. Remix) 04:39

Numba One outta Studio 2. Cris P. casually swingin' down the road to the lake, for a dance with his mates. Dubstylee! Working outta Worb (Bern), Cris P. has fresh riddims and even full on studio productions on offer at his Studio 2.

07 Chumpnrun (Digitalis Remix) 04:28

Digitalis take the original synth-hooks and vocal elements and chase them over a Tech-beat. The forward drive is clearly the motto here, the clever arrangement keeps up the tension to the end. Digitalis – a laptop-project by Oblivion and Ntk – produce Techno and Ambient music since 2001, their releases are available on thinner.com and realaudio.ch

08 Trolley (Everest Remix) 03:44

Bernese downtempo Ectronica for sombre days. We stray through the thick fog with Meienberg and Matu – and we shiver, not anxiously so, thinking of winter already on our doorstep. Good to know, that the base-camp has stocks of music with high nutritional value at the ready.

FILEWILE REMIXED PART TWO**01 Chumpnrun (Round Table Knights Remix) 03:34**

The rough and ready award goes out to the Round Table Knights DJ collective from Bern, famous for their parties at home and abroad. A minimalistic piece with hit potential. And it ROCKS!

02 Chumpnrun (Filewile Rescan) 05:43 We about ourselves: The rescan is, so to speak, the outer space version of the original in reduced surroundings.

03 Trolley (Tim Scott Remix) 05:28 Snap your fingers to this! A Broken-Beat gangster tune by DJ Tim Scott from Liverpool. The track is carried by a funky piano-hook that rides the drum-loop alongside a wicked live bass sample. Everyone gets moving when the chorus comes in with its vocal line and the synth builds up tension with a toned down acid vibe.

04 Chumpnrun (Illy Noiz Dub Mix) 03:34 A heavy down-tempo Dub mix by this collective from Amsterdam, with a beautifully melancholic string sample that floats over a bass-line you could ride to town on. The track is rounded off by a mean synth solo that puts the Illy Noiz Boyz in a prime spot to become Kings of the ghetto.

05 Kleppa (Swotronic Remix) 04:46

Electro, dubwise. The Swotronic remix takes hold of your legs and ears and lets you dance. The sounds are full of pressure and the beat is heavy. Thus the recommendation: Turn it up and let the arpeggios rock! Swotronic is Stefan Wolf aka DJ SWo and Dani Wihler aka Alphatronic.

06 Trolley (Dashes Remix) 05:58

This one's a deep and playful tune with plenty of drive and clever rhythm changes. Jazzy drum loops intertwine with warm Electronica. Dashes is a project of singer Isa Wyss and producer Marco Agovino, who is also drummer for Mich Gerber amongst other things.

07 Kleppa (Saru Remix) 07:16

Delicate sounds by this DJ / producer from California. A dubby Electro version to trigger that emotion called happiness. At zero gravity we steer through the psychotropics department of a wholesale medicine distributor. Check out Saru's radio realtime365.

08 Kleppa (Signorino TJ Remix) 03:51 What more to say?! Signorino TJ is a pop star for real: he even delivers his own lyrics. And a banjo. And saves the world with it. Great!
