Info:

Before dropping their new long player, **Filewile** bless us with a gem of an EP: The **Number One Kid** mixes take you on a ride through soul caressing Bass music, twisted Hip Hop and straight out partying. The new Filewile sound is clearly inspirational - rarely have four producers made so much out of the one and same tune! Vinyl 12" contains Download Code.

A1 Original

Picture one of them pimped up **70's cars** bouncing down the hot inner city street, seemingly pushed along on nothing but the **bass pounding** from it's speakers. The tune blatin' is **Number One Kid** and the kids on the streets are all out **shaking, breakin'** and **poppin'** to the dubbed out Hip Hop **Soul** Sound that is Filewile. One tune this! It won't leave once its in your head and you probably won't mind.

A2 Robot Koch Remix

People! - Take your time to listen to this handclapping **Electro Space Breaker** and let it lift you up on a bass and carry you off into the early hours. This is awfully deep and soulful music - put it on rewind and never sleep again. Beautiful.

A3 Algorithm & Blues Remix

One heavy twisted Hip Hop Electronica Version of Number One Kid by **Mexican** Producer Alvaro Ruiz who recently smashed it accross Europe and the States with his "**Cute Ass Algorithm**" release on Mouthwatering Records. Shake a leg and bounce to this!

B1 Ramax Remix

Deep funky Garage House with an Acid twist - bound to move any floor. The city of Bern is waking up to a new wave of homegrown class A house producers - Ramax is one of them. The superb production quality and the incredible drive in this tune makes you wanna **freak out on the dancefloor** right here, right now. Tune!

B2 Mercury Remix

One for the late hours. **Darkish Techno House** with a wicked tension build on a rather classic break with a killer return half way. Rave material - certain DJ's couldn't wait to give this a spin!
